SOFTWARE ENGINEER

Full Stack Developer based in NYC, experienced in building robust apps in Ruby, Python, and Javascript. I am passionate about learning the latest technologies and implementing them to their utmost effectiveness.

TECHNICAL SKILLS

Hard Skills: Git, Ruby, Python, Javascript, Rails, Django, Flask, Express, React, Sass, MongoDB, API / Database deployment, PostgreSQL, and User Authentication

Soft Skills: Communication, Leadership, Conflict management, Adaptability

EXPERIENCE

Flatiron School, New York, NY

Aug 2022 - Present

Software Engineering Coach

- I work in close collaboration with Instructors to support students through 1:1 check-ins, paired programming, answering questions, and leveraging other methods of academic support and intervention in conjunction with my team to provide a quality education.
- Held lectures in topics such as React and in API development / Authentication

Freelance, Remote

Aug 2022 - Present

Freelance engineer

- Developed full stack apps to solve problems and/or improve scalability for independent businesses
- [Cash4watches.com](https://cash4watches.com) is a watch consignment site contracted by Das Incentives LLC to scale their business through the automation of shipping labels and improved client communication
- **Tech used:** Ruby, Rails, Amazon S3, React, PostgreSQL

General Assembly, New York, NY

May 2022 - Aug 2022

Teacher Assistant

- Collaborated with the instructional team to lead a Software Engineering Immersive class of 13 to build full-stack applications, debugged their code and doubled down on the material covered in class.

PROJECTS

Hater [Github](#) | [Deployed](#) | [Demo Video](#)

- Full Stack social media app where users can create/comment on each other's posts
- Built robust RESTful API routes with user authentication
- **Tech used:** React, CSS, Django Rest Framework, PostgreSQL

Cosmos [Github](#) | [Deployed](#) | [Demo Video](#)

- A creative e-commerce site where planets are sold utilizing the MERN stack and Json Web Tokens to authenticate users.
- **Tech used:** MongoDB, Express, React, NodeJS

EDUCATION

General Assembly, New York, NY

Feb 2022 - May 2022

Certificate in Software Engineering

- 12-Week immersive software engineering program based in New York City centered on full-stack development.
